

Announcement – Changes to the West Point Hunting Map

As of September 1st, 2019, there is a new West Point Hunting Map. This map supersedes the 2017 Hunting Map and all other previous versions. The 2019 map is the only map that individuals should be relying on in the field. The current interactive hunting map on iSportsman has already been updated to reflect these changes. This announcement points out below the specific changes made to the map.

- 1) **Area D1 and Area D4.** In the new West Point Hunting Map, the new Area D1 includes what was previously Area D1 as well as what was previously Area D4. The new Area D1 has absorbed not only all old Area D4 land but also its hunter capacity. There is no longer an Area D4 hunting area. However, no total hunting area nor total hunter capacity has been lost.

- 2) **Area J1 (Bow).** In the new West Point Hunting Map, the new Area J1 Bow is a Bow Hunting Only Area. The old Area J1 was a Bow Hunting and Primitive Muzzleloader Area. Primitive Muzzleloader is no longer permitted in Area J1 Bow. No boundaries or borders to the area have been changed and no hunting area or hunter capacity has been lost in Area J1 Bow.

Where can I get a copy of the new hunting map?

An 8.5" x 11" PDF copy of the new hunting map is already available for users to print out on the West Point iSportsman Website.

18" x 24" waterproof maps are in the process of being ordered and should be available by the start of 2019 Regular Big Game Season.
