

REQUEST FOR INFORMATION ON OTTER SIGHTINGS

In 2026, in a follow up to continued successful request for information on bobcat and fisher sightings over the past few years, the West Point Natural Resources Section is seeking reports of otter sightings from hunters, military, or civilian personnel. If you've seen an otter in person, on camera, or as roadkill—at West Point – please help us out.

HOW CAN YOU HELP?

IF SEEN ANYWHERE ON THE WEST POINT MILITARY RESERVATION:

If you see a bobcat or fisher **at West Point**: Please send an email **“Otter Sighting (with date)”** to West Point’s Natural Resources Research Fellow, Tiernan Tobin at : tiernan.n.tobin.ctr@army.mil, with information on:

1. Date and time of sighting
2. Location of sighting (Road/Range Road/Training Area/Etc. (Lat/Long is useful)
3. What the animal was doing

The more specific you can be about date, time, animal condition or activity the better and if you have photos/video, please include them if you'd like.
